

How to configure smarter mail account in iPhone using IMAP?

Follow these step-by-step instructions to set up your email account on your iPhone

1. Select **Settings** from the home screen of your iPhone:

3. Choose **Other** from the list that appears:

4. Select **Add Mail Account**. In the **New Account** menu, you will need to specify the following records:
 - **Name** – your name (will appear as sender name)
 - **Address** – your full email address
 - **Password** – the password for this email address
 - **Description** – lets you specify any description (we suggest you use your email address)
 - Click **Next**
